

# BLAKE NEELY

## Senior Software Engineer

📞 6154311422 @ blake@neelystudio.com 🔗 <https://www.linkedin.com/in/blakeneely/> 📍 Nashville, TN

## SUMMARY

Innovative Senior Software Engineer driven by success with a strong background in frontend development. Highly skilled in React, TypeScript and GraphQL. Expertise in designing, optimizing, and scaling MFE applications, mentoring cross-functional teams, and delivering high-impact user experiences with beautiful data visualization in a continuous integration, fast-paced Agile environment.

## KEY ACHIEVEMENTS

### ✓ Architect

Built and maintained 4 robust, client facing MFE apps using React, TypeScript, Express and GraphQL

### ✓ Reusable Components Library

Built Storybook with 40+ reusable components, saving 30% development time.

### ✓ Internationalization Implementation

Implemented i18n for 10 languages and 180 currencies.

### ✓ Frontend Knowledge Sharing

Led frontend group community group in to connect frontend devs across the US and Europe

## EXPERIENCE

### Senior Software Engineer

#### Costar

📅 04/2021 - Present 📍 Nashville, TN

- Architected, deployed and maintained 4 robust client facing MFE apps from 0-1 built on React, TypeScript, Express, and GraphQL hitting RESTful APIs
- Reduced page load times by 85% by optimizing GraphQL queries, improving API caching, and streamlining React components
- Expanded a Storybook library of 40+ reusable components such as data tables, date pickers, forms and modals reducing dev build times
- Integrated i18n standardization to support 10 language cultures and 180 currencies
- Collaborated with our Product Owner daily to design and deliver pixel-perfect, user-friendly interfaces
- Led a monthly frontend knowledge-sharing group of 38 devs, facilitating training and mentoring sessions
- Interviewed, onboarded, and mentored new devs to build high-performing technical teams
- Facilitated Scrum ceremonies including daily stand-ups, product backlog refinement and retrospectives

### Software Engineer

#### Freelance

📅 01/2018 - 04/2021 📍 Nashville, TN

- Designed and developed custom websites using a wide range of technologies including React, JavaScript, jQuery, Shopify, WordPress and HTML/CSS solutions
- Improved SEO, client branding and marketing strategies increasing market visibility
